

## The Science of Stronger Bonds

**“Allergies can spell misery for pets, which makes it a tough diagnosis for clients”**

Zoetis and Valley Central Emergency and Referral welcome veterinarians to an interactive and educational event, focusing on fine-tuning your diagnostic skills in preparation for your next itchy patient.

**Tuesday, October 16<sup>th</sup> @ Blue Steakhouse**

4431 Easton Ave, Bethlehem, Pa 18020

**Welcome: 6:00pm**

**7:00-8:30pm Lecture & Interactive Case Discussions**

**\*\* This educational program is pending approval for 1 hour of RACE \*\***

**Christopher Lee, DVM, Diplomate ACVPM**

**Diplomate (Emeritus) American Board of Veterinary Practitioners**

Hailing from sunny California and US Davis, Dr. Christopher Lee is a preventive medicine specialist. As such, his focus dwells on the interacting disciplines of infectious and parasitic diseases, toxicology, immunology, scientific study design, and epidemiology. This diversity establishes a foundation from which Dr. Lee constructs practical wisdom for the everyday practitioner. Whether it is talking biostats and biologics or pharmaceuticals and nutraceuticals, Dr. Lee strives to make the recondite, relatable. Having spoken nationally for almost a decade, this self-proclaimed geek employs a dry humor style resulting from years of hospital ownership, employee management, and running rescues. His weekly podcasts can be found on iTunes.

**VALLEY CENTRAL**  
VETERINARY REFERRAL AND  
EMERGENCY CENTER
